Dear Hiring Manager at **iSpace, Inc,**

I am writing to express my interest in the Senior Full Stack Developer position at your company as advertised.

I was captivated by iSpace's vision of "Expanding our Planet. Expanding our Future." and its commitment to providing high-frequency, low-cost transportation services to the Moon.
The company's innovative approach to designing and building lunar landers and rovers, coupled with its ambitious goal of landing on the far side of the Moon by 2025, is truly inspiring. I am eager to be a part of a team that is at the forefront of lunar exploration and resource utilization.

Throughout my career, I have demonstrated a strong proficiency in designing, developing, and maintaining various of software products. I am adept at collaborating with cross-functional teams, including designers, other developers and product managers to understand requirements and deliver robust solutions that meet the needs of stakeholders

My qualifications and experience that might be a great match for this job include:

- Implemented frontend UI components and microservices to support new features, leveraging technologies such as Angular, React, Java, Spring Boot, Hibernate, and RESTful APIs
- Initiated 10+ projects from scratch across various of industries technologies like ReactJS, Redux, Java, and Spring Boot , AWS
- Developed scalable and extensible backend services and APIs using technologies such as Java Spring Boot, Node.js, implementing complex business rules, workflows, and data processing
- Designed schemas and writing optimized queries for MySQL and SQL Server databases for customer facing services in Walmart, Inc

Thank you for considering my application. I am enthusiastic about the possibility of joining the ispace team and contributing to its mission of extending human life beyond Earth.
Please feel free to contact me at +1 (352) 507-6561 or emili.gonzalez.dev@gmail.com to schedule a conversation.
